For Highlands and Islands prices and delivery times will vary, please call for details. 24 and 48 hour delivery is available in most areas - **call for details.**

Returns & Exchanges

If any item does not meet your expectations you may return it unused within 30 days. Please return it in the original packaging and obtain proof of return

from the carrier. Bradshaws will cover the cost of returns for damaged and faulty products only. Please call our customer service team before returning any item on **01904 696999**. Remember to include the returns label from your despatch note in your parcel. Please state whether you require a refund or replacement. Your statutory rights are not affected.

All of our tarpaulins are 'cut sizes' which means that the material is measured before being made into a tarpaulin. Because of this, the finished size can be up to 15cm shorter than advertised.

Tarpaulins

DIRECT

Welcome to our 2021/22 catalogue.

Difficult Times

Over the last year or so there have been unprecedented problems in global shipping routes. These have been caused by many factors from the pandemic, peaks in demand, driver shortages and even the ship stuck in the Suez Canal. Here at Tarpaulins Direct we've done everything we can to respond to those issues and secure our stocks for the coming months. This includes ordering huge quantities of tarps much earlier than usual. Inevitably there'll be some items out of stock and for that we must apologise. With demand and supply being so mismatched the best advice is to order early or try a different grade of tarp if you need it urgently. Give us a call if you need help or advice.

Contact Free Delivery

When our couriers deliver you won't need to sign for your parcel and they can drop it on your doorstep to help maintain social distancing. In our warehouse we are COVID secure and are following all government guidelines. Stay safe.

Thank you

Conrad Betts

Great Gadgets

Draper Octopus 1000mm Bungee Strap

These innovative bungee straps from Draper are designed for securing loads at multiple points. They are comprised of 8 robust hooks attached to powerful rubber straps. These are just the thing for tying down awkward and unwieldy loads. They're good for a whole host of applications both commercial or for home use.

DR63544 **£14.99**

Adjustable Bungee

These adjustable bungees are fast, safe and easy to use. They adjust quickly to the perfect length and don't slip. The natural rubber cords are coated with a UV treated polyester braiding. They will resist harmful sunlight for an extended period.

Available in a choice of 3 lengths. Colours may vary.

Budget Tarpaulins

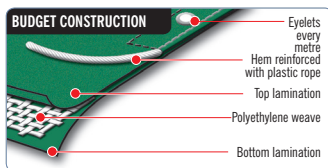

If you're looking for a good quality, multi-purpose tarpaulin then our Budget tarpaulin is the one for you.

Our range of Budget Tarpaulins has been developed to provide a protective cover at a value for money price. Waterproof and rot proof they are suitable for garden and domestic use, indoors or out. Their waterproof qualities and tear resistance also make them ideal for use indoors when you're decorating to protect your floor or furniture from paint. All our tarpaulins are UV protected to remain both waterproof and rot free for 18 months.

Provides superb car/van protection.

Use your tarpaulin to protect your car or van upholstery from damp and dirty pets, workwear and muddy boots or as a car boot protector when carrying dirty or dusty loads.

Topgrade Tarpaulins

Topgrade tarpaulins are specially made from super strong tightly woven polyethylene providing lasting protection against the elements.

Topgrade is our most popular and versatile tarpaulin, suitable for use in some of the most demanding industrial environments as well as for tough jobs around the home and garden. It is not only extremely tough it's also incredibly lightweight and easy to handle even when wet.

- Now with polycarbonate eyelets that won't scratch if used on boats
- Our green tarpaulins blend easily into the landscape and are often used by farmers to cover machinery and haystacks
- Boat owners use our blue tarpaulins to cover boats or marine equipment, or as dust sheets above or below deck
- Eyelets every metre
- Double edged rope - reinforced hems

Monotex Tarpaulins

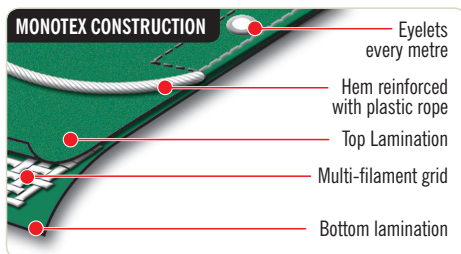

Monotex Industrial Strength Tarpaulin

Monotex tarpaulins are incredibly strong and are suitable for use in the toughest of environments. The secret of their strength lies in a grid of ropes that are sandwiched between two thick, hardwearing polyethylene sheets, making them virtually indestructible.

This extra-strong construction results in a tarpaulin which will provide long-lasting protection. The sheer strength and waterproof qualities of Monotex make it ideal as a temporary roof covering (in fact, many of our customers are roofing contractors).

Clear Monotex is almost entirely see-through. This makes it the ideal choice when you need to work under a cover but still want plenty of light to come through. Many of our customers use these to cover their boats when they want to work on them in winter, or on market stalls so that customers can see the products in natural light. All our tarpaulins are UV protected to remain both waterproof and rot free for 18 months.

- Clear is great as temporary roofing as it lets plenty of light through
- Double edged rope reinforced hems
- Eyelets every metre

Supergrade Tarpaulins

Supergrade – Our toughest ever PE Tarpaulins

Weighing in at a full 270 grammes per square metre, this is our toughest ever PE tarp. Built from a tri-laminate weave with 16 strands to the inch for maximum durability. Heavily reinforced corners, double-edged reinforced hems and metal eyelets every metre.

Supergrade tarps are black on one side and silver on the other.

This grade of tarpaulin would be suitable when it needs to be outside for a long time, or when you need to pull the tarpaulin tight around a load. They are ideal for long term roofing during a building project too.

- The corner reinforcements makes this a very long lasting product
- Black/Silver reversible
- Double edged reinforced hems
- Eyelets every metre

Tarp Tape

Need to modify or repair your tarp but still want it to look good? Tarp Tape is the answer. Made in the USA, it is an extra-thick, super-strong and waterproof tape that will:

- Fix rips and tears
- Join two tarps
- Reinforce stress points

Tarp Tape comes in a range of colours to match your tarpaulin and give a professional finish. Each roll is 2" wide and 35' long (that's approximately 50mm wide and 10.6 metres long).

Camouflage Tarpaulins

Camouflage Tarpaulins

Our Camouflage Pattern Tarpaulins are ideal for all your tarpaulin uses, and especially when you want something to disappear.

These make a great replacement for a camouflage net. Camo netting is heavy and these are much lighter but still very strong. A camouflage bivvy is useful for anglers and bushcraft campers where a camo tent would be a bit too much.

Paintball venues can use them to cover a base or a trench or anything else that could do to disappear.

As well as the military uses these tarps will fit in perfectly at activity centres, scout meetings, cadets etc. Use for camping, or at home/ garden and in fact just about anywhere.

Just the job for gathering garden rubbish, covering outdoor features and furniture or a log pile at the bottom of the garden.

Constructed from strong durable materials making them tear resistant and waterproof, our camouflage tarps are suitable for indoor or outdoor use.

- Eyelets every metre
- Double edged rope reinforced hems
- Colour: Standard camouflage disruptive pattern

Flexi Tarp Expert Flame Retardant

These tarpaulins have been manufactured to be flame retardant according to EN 13501-1 class B.

The design of the tarp means that although not see through they allow a lot of light to pass and so are ideal for working under or behind. The tarp weighs 170 grammes per square meter and is constructed of a polypropylene rope grid sandwiched between two outer waterproof layers.

Tarp Tape

When you need to modify or repair your tarp but still want it to look good Tarp Tape is the answer. Made in the USA Tarp Tape is an extra-thick, super-strong and waterproof tape that will:

- Fix rips and tears
- Join two tarps
- Reinforce stress points

Tarp Tape comes in a range of colours to match your tarpaulin and give a professional finish. Each roll is 2" wide and 35' long (that's approximately 50mm wide and 10.6 metres long).

£9.99 each

Dad's Tape on Hatch

Need a hatch in your tarp? Want to work on your boat even when it's covered for the winter? This is the product for you. Simply stick the hatch onto your tarp using the white adhesive tape provided, open the zip and cut away the tarp inside. That's it, now you've got a hatch that's designed to withstand the weather conditions of several environments, including construction, greenhouse and agricultural. The hatch is UV treated to last and can be opened from either side.

Hatch 30" x 36" (76cm x 91cm) DADHT36 **£28.99**

Polyfix Tape Kit

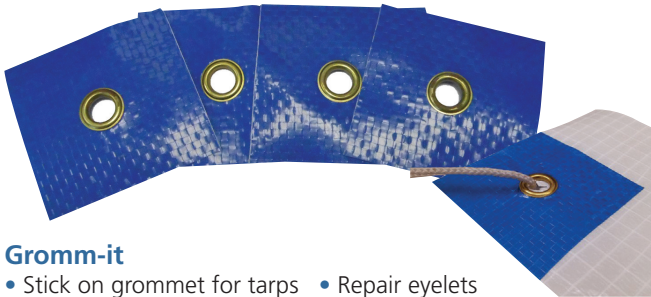

Make your own custom shaped covers by trimming your tarpaulin and using polyfix tape to seal the joins. Includes 5 metres of double sided adhesive tape and 9 metres of single sided finishing tape. CK005M **£11.99**

Dad's Tape

Dad's Tape is the answer for quick and long lasting repairs for tarpaulins. A 'peel and stick' tape, it is 8 feet long and is also great for fixing tool handles and other repair jobs. The tape sticks to aluminium, glass, plastic, vinyl, rubber, tarps and more. It is UV resistant, and holds in extreme outdoor weather conditions.

DADT01 **£5.99**
